

ILC Announces Improved Results for Third-Quarter, 2004

Informatix Laboratories Corp. (ILC) continues to report strong revenue and earnings with the announcement of its third-quarter, 2004 financial results. For the quarter, pre-tax earnings were \$103,168 on revenue of \$478,174. This was the best third-quarter ever and an improvement from last quarter. Revenue increased in the Patient Account Management System (PAMS) development, the Medsphere Billing and Banking Module development and Technical Services. Other areas of ILC were down from the prior quarter. Technical Services revenue increased 195% due to the sale of the first newly developed Document Imaging System. The PAMS project is nearing the Alpha and Beta testing phase and expects to install the first test site first-quarter, 2005.
